

MONUMENT TO BE ERECTED AT MOUNTAIN MEADOWS.

A monument will be erected by the Utah Trails and Landmarks Association with the help of citizens of Washington county at the place where the Mountain Meadow massacre occurred.

The association will erect a stone wall around the graves of the unfortunate company who lost their lives there. At the entrance of the enclosure a tablet will be placed which will give the details of the sad affair which ended their lives.

Although the wording of the inscription has not been definitely decided the tentative inscription gives the date, mentions names prominently connected with the massacre and describes briefly the conditions that lead to it, what happened and the justice meted to the leaders. August 22, has been proposed as the date of the placing of the tablet.
